

Cai Yun ® 802 T/W

Water-proof Nylon Paste

Application

1. Need to add 3% fixer into the paste and blend thoroughly before printing. The paste mixed with fixer should be used up within 8 hours.
2. To test washing durability after natural drying, the user should wait at least 48 hours after natural drying. To achieve the best washing performance, the user should wait one week after natural drying.
3. Since there is a various kinds of water-repellent fabrics on the market, it is strongly recommended to test the paste first before mass production.

Storage

Keep container tightly closed and in a well-ventilated place. Most suitable storage temperature is 5~35°C. Keep away from heat, steam pipe or sunlight.
